

Pre-Aerosol, Cloud, and ocean Ecosystem (PACE)
Conflict of Interest Memo Addendum

The work of the Science Definition Team (SDT) is intended to be both public and transparent. The SDT will be disbanded prior to the commencement of any Announcement of Opportunity (AO) requirements planning or issuance of an AO. The creation of the AO will be the exclusive responsibility of NASA, not the SDT. There will, therefore, be no restrictions placed on the participation of any SDT members in the response phase to any AO that is issued in the future.
